ABOUT ME

A curious Physicist doing his M.Sc. in Germany's leading universities and graduated from Turkey's one of the most outstanding universities with an honors degree. Have strong theoretical background and problem-solving skills. Knows statistical methods and data analysis in Astrophysics and Theoretical Physics. Knows Quantum Computing methods and algorithms. An effective team worker. Experienced in organizing many conferences and science festivals. A professional musician. Plays the keyboard and piano in several bands.

EDUCATION AND TRAINING

M.Sc. Quantum Science & Technology

Technical University of Munich & Ludwig Maximilian University of Munich [2022 – Current]

Address: München (Germany)

Website: tum.de

B.Sc. Physics, Honors Degree

Middle East Technical University [2016 – Aug 2022]

Address: Ankara (Turkey)

Website: metu.edu.tr

Field(s) of study: Physics

Final grade: CGPA: 3.00 /4.00 – Honors Degree with 317 ECTS

Thesis: Estimating Hamiltonian in a Schwarzschild (Black Hole) Metric with Quantum Computers Using VQE Algorithm

Feza Gursey Institute Hakki Ogelman Summer School On "Astrophysical Modeling"

Feza Gursey Institute, Bogazici University [2019 – 2019]

Address: Istanbul (Turkey)

PROJECTS

Estimating Hamiltonian in a 3+0 Schwarzschild (Black Hole) Metric with Quantum Computers Using VQE Algorithm

[2021 – 2022]

What I tried to understand in my graduation project is the free electron's behavior in a 3+0 Schwarzschild Black hole by looking at its Hamiltonian by using Variational Quantum Eigensolvers.

RSA Decryption Algorithm with Shor's Algorithm

[2022 – 2022]

Final project of a given course, called "Practical Quantum Computing for Scientists" in METU fall 2022

An algorithm that decrypts RSA with Shor's Algorithm on python Qiskit.
